## DEDICATION

*We, the students of 1958, dedicate this year's Louisbook to the men who have graduated from St. Louis College and have left to become Brothers. We salute them for their inspiring religious zeal and those boys who will, in the future, follow in their footsteps.*

## *Principal's Message*

*Our congratulations and thanks to those who have spent time and effort in presenting this yearbook. It means much to have such a publication, a pictorial review of familiar faces, of various events shared by all, yet belonging to each. It provides us in the future years with precious experiences—our memories.*

*Memories of school days are peculiar. Very shortly, after we leave school, the unpleasant experiences, the jars and jolts are soon mercifully forgotten. There remain only the memories of the joys, the friends, the victories we achieved as we strove to become men. These are enhanced with the passage of time and become more beautiful for being memories.*
